Rockstar San Diego
San Diego, California

Dear Hiring Manager,

I am excited to apply for the *Associate Mission Designer* role with Rockstar. As a recent graduate of the Game Design MFA program at New York University, I believe that I should join Rockstar for the following reasons:

- **Enthusiasm of Rockstar games:** I appreciate the game design philosophy that Rockstar advocates. It presented several Open-World games with the highest industry standard and a rigorous developing attitude. One of my career goals is to discover the potential of Open-World RPG, and I am sure that in Rockstar, I would be able to achieve this dream.
- **Knowledge of game development:** I firmly know how to make a game from A to Z. I worked as a game designer on multiple game projects, including two 3D walking simulators, two visual novels, and several interactive experiments. My responsibilities included level design, building prototypes, and adjusting gameplay performance. I am proficient in the majority of developing tools such as Unity, Unreal, Maya, and Photoshop. I am also proficient in programming languages like C# and Python. All those skills make me a qualified technical game designer.
- **Rapid prototyping ability:** I can quickly achieve the game function with limited codes and art assets. I used Unity to make unique playable prototypes alone as weekly practice, most of them were finished in less than 10 hours. I am also confident that my quick prototyping ability can cover most game genres. So far, I have tried 3D walking sim, platformer, point-and-click, bullet-hell, and music games.
- **Experience of working with a large developing team:** I have great communication skills with the developing team, ensuring that the design idea is successfully delivered to other departments. During my internship at Tencent Games, I worked with an MMORPG developing group of more than 100 people. My jobs included writing design statements, reporting bugs to the development team, and negotiating with 3D artists and programmers. At the end of the internship, my work was highly appreciated by my supervisor.

I am confident that my relevant skills and background would allow me to make an immediate contribution to your team. You may contact me at 347-276-4658 or ryysophie@126.com. Thank you for your time and consideration.

Sincerely,

Yangying Ren
